

Multimedia Service

Zeniark offers effective Multimedia solutions and designs service to help clients develop corporate identity strong branding. What sets us apart from other companies is our ability to use video, audio and animation to spice up a presentation. We provide clients with interactive and strong visual presentations of their products or service through our multimedia tools and techniques. With a blend of creativity, training and technical skills we provide designs that stand out among today's multimedia marketing.

Our Multimedia services include, but are not limited to the following:

- **Interactive Flash presentations** – Flash presentation is a versatile and popular method to add action to your web site and enables you to integrate text, narration, audio, images, arts and other content to deliver a more engaging and interactive user experience.
- **Interactive Flash Animation** – We will provide you a more professional, high- tech, or fun touch that would make a lasting impression to your viewers. Flash Animation can also be used for infomercials.
- **Flash Web Intro Design** – Viewers will surely love a stunning Flash intro on any website. It all begins with a customized flash template that gives high impact on your websites.
- **Flash Banner Design** – Our team of highly talented designers will work to create a design for you that intends to push brand identity, sell products, increase sales and leads or attract more viewers.
- **Video Editing** – We do digital video editing to produce effective and appealing videos. We enhance video files from corporate video presentations, sales and marketing videos, to personal portfolio videos. We can add music tracks, titles and effects to the video and we can distribute it to web streaming, DVDs, Quicktime Movie or CD-ROM.
- **360 Panorama and Virtual Tours** – We have interactive 360 Panorama Tours which can be customized to meet the client's needs. Zeniark offers high quality Photo slide tours, Interactive Flash based Tours, Video Tours, and 360 Panorama photo tours. When we can create a panorama virtual tours for you where you can capture an entire panorama (115 x 360 degree field of view) with one photo.
- **Audio Editing/Recording** – Like Video Editing, we can also edit or record your audio just the way you want it, whether its music, voice or any kinds of audio file formats.
- **Flash and Video Presentations** – We create Flash and video that can be used together or separately. These presentations will add vision to your website and create a powerful and dynamic presentation that will get your company noticed.
- **Online Flash based Business Cards** – Online business cards are more appealing than an ordinary business card or the typical email signature. We can create a Flash based business cards to be used by our clients for viewers to remember them easily.
- **Corporate Presentations** – A company's image is very important to every business that's Zeniark provide Corporate Presentations help in communicating and building a unique brand image for the company to help market products and services.
- **Social Media Integration** – Social Media is a big help to expose your business to a huge number of potential clients, by sharing on Facebook, Twitter, Myspace and other social media sites a business build a reputation online.
